

Occupational and Art Therapy 2005

NATIONAL REFERENCE PRICE LIST FOR SERVICES BY OCCUPATIONAL AND ART THERAPISTS, EFFECTIVE FROM 1 JANUARY 2005

The following reference price list is not a set of tariffs that must be applied by medical schemes and/or providers. It is rather intended to serve as a baseline against which medical schemes can individually determine benefit levels and health service providers can individually determine fees charged to patients. Medical schemes may, for example, determine in their rules that their benefit in respect of a particular health service is equivalent to a specified percentage of the national health reference price list. It is especially intended to serve as a basis for negotiation between individual funders and individual health care providers with a view to facilitating agreements which will minimise balance billing against members of medical schemes. Should individual medical schemes wish to determine benefit structures, and individual providers determine fee structures, on some other basis without reference to this list, they may do so as well.

C

In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed.

VAT EXCLUSIVE PRICES APPEAR IN BRACKETS.

GENERAL RULES

006	<p>Where emergency treatment is provided:</p> <p>a. during working hours, and the provision of such treatment requires the practitioner to leave her or his practice to attend to the patient in hospital; or</p> <p>b. after working hours</p> <p>the fee for such visits shall be the total fee plus 50%.</p> <p>For purposes of this rule:</p> <p>a. "working hours" means 8h00 to 17h00, Monday to Friday.</p> <p>Modifier 0006 must be quoted after the appropriate code number(s) to indicate that this rule is applicable.</p> <p>Rule 006 does not apply to art therapy.</p>	U
008	<p>The provision of assistive devices shall be charged (exclusive of VAT) at net acquisition price plus –</p> <p>- 26% of the net acquisition price where the net acquisition price of that appliance is less than one hundred rands;</p> <p>- a maximum of twenty six rands where the net acquisition price of that appliance is greater than or equal to one hundred rands.</p> <p>Modifier 0008 must be quoted after the appropriate code numbers to show that this rule is applicable.</p>	U

011	Where the therapist performs treatments away from the treatment rooms, travelling costs to be charged according to AA rates e.g. for domicilliary treatments or treatments in nursing homes. Modifier 0011 must be quoted after the appropriate code numbers to show that this rule is applicable. Please note that although only some medical schemes accept responsibility for the payment of transport expenses, others do so in exceptional cases only.	U
012	Every practitioner shall render a monthly account in respect of any service rendered during the month, irrespective of whether or not the treatment has been completed. NB. Every account shall contain the following particulars: i The name and practice number of the consulting occupational or art therapist. ii The name of the member. iii The name of the patient. iv The name of the medical scheme. v The membership number of the patient. vi The nature of the treatment. vii The date on which the service was rendered. viii The relevant diagnostic codes and NHRPL item code numbers relating to the health service rendered.	U
013	It is recommended that, when such benefits are granted, drugs, consumables and disposable items used during a procedure or issued to a patient on discharge will only be reimbursed by a medical scheme if the appropriate code is supplied on the account. Please note: In the case of occupational therapy, a code will only be required when a standard proprietary (off the shelf) product is used. When a splint or support is made by the occupational therapist using or modifying one or more components, a code cannot accurately identify this non-standard product. Please refer to annexure itemising the most commonly made non-standard products used in occupational therapy and bill accordingly. The Occupational Therapy Association of S A has made available a generic list of non-proprietary splints and pressure garments commonly made by practitioners. The type of materials used to manufacture these products is at the discretion of the practitioner concerned. Price of splints and pressure garments may vary. See Annexures A & B.	C
